Continuation of Substance of Interview including description of the general nature of what was discussed: The examiner called applicant to inform him that the final rejection made on 12/23/2004 should NOT have been made final. The motivation for combining references in the rejection under 35 U.S.C. 103(a) resulted in a new grounds of rejection. Therefore, the rejection should not have been made final. The examiner advised the applicant to file an after-final amendment and to traverse the final rejection. The examiner will enter the after-final amendment and will withdraw finality at that time..
